Cards for Father's Day

"Tie"riffic Father's Day Cards

By: [Tania Willis for Fiskars](#)

Wish dads, grandpas, and brothers a Happy Father's Day with these "Tie"riffic Father's Day Cards. These adorable cards and coupon books will be a huge hit with the guys in your life, and this is one tie that dad will surely be happy to receive!

Materials:

- Holiday Hooplah Simple Stick™ Repositionable Rubber Stamps (8" x 8")
- Stitcher Scissors (No. 5)
- Portable Scrapbooking Paper Trimmer (12")
- Stamp Block Set
- Paper gift bag
- Embellishments
- Glue Dots
- Patterned paper
- Scissors
- [Tie Pattern](#)

Instructions:

1. A simple white party favor sack can hold a number of surprises, but the real treat is the fun you'll have choosing the paper to create a traditional tie or a bow tie to embellish your gift bag. This is one of those simple ideas that pack a powerful punch and it's all in the simple details of choosing a paper that is reminiscent of fabric and adding small button embellishments to pull it all together.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

2. To create the shirt band, you simply fold down the top of the unopened bag about 1 ½" and crease. Then unfold and use your scissors to make a 1" deep cut along the crease from both outside edges in toward the center. Place your gift inside the bag, then pinch the top closed and fold the flaps in at a 45-degree angle. Secure the flaps with glue dots and embellish the front with either a hand-cut traditional tie or a bow tie.
3. Add even more realistic details, such as; buttons and or brads to resemble a tie-tack. If you'd like, you can secure the outside cut edges of the bag with a small piece of scotch tape to ensure nothing falls out.
4. Coupon books redeemable for acts of service are a great way to get children thinking about how they can go out of their way to do something for dad. These booklets are made with the help of a word processing program and an interchangeable perforation blade for your paper trimmer, and come together in less than 15 minutes.

5. Simply trace a tie template onto patterned paper and cut out using your detail scissors.

6. Insert your perforation blade into your paper trimmer blade chamber.
7. Lay the ties onto your paper trimmer at the smallest width of the tie and make one pass with the perforation blade. As you can see you can lay up to 4 ties across the cutting groove before making your

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

pass. This will perforate the paper allowing the coupons to easily tear away much like a traditional coupon. Then, all that's left is to print the PDF, stamp the phrase 'happy father's day' found on the Holiday Hooplah stamp set, cut out your coupons and adhere one to each tie. Once you've done that, gather them up in a stack and staple together at the top of the tie with two staples and you're ready to gift it.

8. For the origami-fold card, I just found simple instructions by looking online. I found the folding was made much easier when using my bone folding tool. This especially makes folding easier if you're using heavy-weight cardstock paper and will definitely make your folds much crisper in appearance. Once you learn the folding technique you'll find that you can use any size of rectangle and still end up with the same results. To finish off the card with an appropriate sentiment, I once again turned to the same stamps from the Holiday Hooplah set.

Photobooth Father's Day Card

By: [Emma Jeffrey for Fiskars](#)

Send dad a whole envelope full of smiles with this Photobooth Father's Day Card. Great for the whole family to do together, this Father's Day card is sure to please dads, grandpas, and uncles alike! Kids will love getting in on the fun, too. This is sure to be a card that dad will treasure and cherish for years to come.

Materials:

- Fingertip Swivel Detail Knife
- Bracket & Journal Shape Template (8 1/2" x 11")
- Fingertip Detail Knife
- SureCut™ Deluxe Craft Paper Trimmer (12")
- Pencil
- Cardstock
- Wooden skewer
- Glue gun
- Fabric for backdrop
- Camera
- Basic photo editing software such as Picasa

Instructions:

1. I started by sketching a beard and sunglasses onto tracing paper. I also printed out a simple sign for the kids to hold saying 'We heart dad'. I have always thought that one of the brackets on the brackets template looked like a mustache, so I used that to draw around and create my mustache shape.
2. I then placed the tracing paper on top of some black cardstock face down, and by retracing over the pencil lines I was able to transfer the sketch lines onto the cardstock. Next, I cut out the shapes. I found my swivel tip craft knife especially helpful when cutting out the beard and its curvy lines.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

3. I decided to laminate my props (who knows, they may get plenty more use aside from this Father's Day card!) so I took them to my local teacher supplies store who has a laminating machine that costs just a few cents per foot, to use.

4. Cut around the shapes and adhere some wooden skewers to the sides with a glue gun.

5. With the props complete, I moved on to creating my photobooth backdrop. I did this simply by hanging a piece of ironed fabric to the wall with tape and draped a felted heart bunting (made for us by a friend) across it. I knew my photos were going to be black and white so I kept my backdrop simple and subtle.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

6. Next came the fun bit - the photoshoot. I was surprised how enthusiastic my children were about participating in this shoot, but there's nothing like a couple of funny props and silly faces (as well as the occasional bribe) to help things along. I snapped away for about 20 minutes trying to let them try out their own poses and allow their different personalities to shine through. I used Picasa to edit my photos into a photobooth style. First I changed the images to black and white and adjusted the contrast between the highlights and shadows to get a sharp look. I also cropped the photos to a square.
7. I then selected four of my favorite photos (this was hard to do because I loved so many of them, so I ended up making two different strips - one portrait and one landscape) and arranged them into a collage in Picasa. I had them printed at the store and on getting them home, cropped them at the sides with my paper trimmer to create the long photobooth strip we all know and love.
8. We are going to want to keep these photo strips forever, so I mounted them on cardstock cut slightly larger than the photos. I cut 4 diagonal lines so that I could feed the four corners of the photos through the slots, thus making them completely removable from the card after Father's Day. I'm thinking we'll frame them eventually.
9. I finished the card with a simple handwritten greeting and, of course, little messages and notes from the kids to their amazing dad, in the inside.

2. At this time, if you prefer the rounded corner look, you can use a Rounded Corner Punch to round out each corner of each square panel. Or you can proceed to next step.
3. Use the Xacto knife to make small slits in each upper corner of your square panels. Or you can use the hole punch to create holes.
4. Take your ribbon and weave it through the slits of each panel until you have a finished banner! Or instead of weaving the ribbon through each panel, you can cut ribbon to approximately 6 inch strips and tie panels together using the ribbon and making a simple tie, until all panels are tied together.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

Instructions:

1. For Canvas Flowers: Paint canvas squares with desired spray paint. Cut canvas squares across two sides, leaving a solid area of 2 inches in the center of square. Fold squares; gather in the center with 22-gauge wire. Separate layers and gently pull in different directions. Hot glue onto a green grounding connector and attach to a 12-gauge wire stem.
2. For Window Screen Flowers: Paint screen desired color. Fold each side of screen toward its center. Attach 22-gauge wire to sawtooth picture hanger. Lay strip of screen across hanger; wrap tightly with wire. After each wrap, make a 1- to 2-inch loop; wrap again. Repeat process until length of picture hanger is covered. Spread loops apart; shape as desired. Hot glue onto a green grounding connector and attach to a 12-gauge wire stem.
3. For Paper Stalk Flowers: From the paper squares, cut a 4-sided propeller shape. From the paper triangles, cut a 3-sided propeller shape. Cut a 2-sided propeller shape from the paper strip. Paint paper as desired. Cut 12-gauge wire to desired length. Twist green grounding connector onto wire. Slide a 4-sided paper propeller onto wire; secure with hot glue. Repeat process, leaving a 3-inch space between each propeller.
4. For Burlap Flowers: Cut squares into 4-sided pinwheel shapes. Dip into wallpaper paste mixture; drape over paper cup to dry. Cut 12-gauge wire to desired length. Twist a green grounding connector onto wire. Place 3 dried pinwheels together; slide onto wire. Push center into green grounding cap; secure with hot glue.
5. For Electrical Tape Eucalyptus: Cut 12-gauge wire to desired length. At top of wire, pinch tape together. Continue wrapping tape around wire, leaving a 3/4-inch pinched tab after each wrap. After entire length of wire is wrapped, clip tab edges to create the look of rounded leaves.
6. For Seed Cover Leaf: Paint tape and wire green. Cut 12-gauge wire to desired length. Fold green seed cover fabric in half twice, to create a small square. Pinch bottom corners together; press against wire about 4 inches from the top. Starting above the leaf, wrap green electrical tape around wire. Tightly wrap gathered section, shaping cloth like a leaf. Repeat process until desired number of leaves are made.

Father's Day Wreath

By: Rhonda Unruh for Home.Made

Get in the spirit for Father's Day with this simple and fun Father's Day Wreath! This decorative wreath can hang either indoors or out and is a great way to welcome friends and family to your summer BBQ! This wreath also makes a great gift for dads and grandpas!

Materials:

- Styrofoam Wreath Form
- White Button-Down Men's Shirt
- Jute twine
- D, A, D letters (mine are foam but you can use wood or chipboard)
- Paint and Mod Podge
- Fabric for a bowtie (or the real thing, if you have one)
- Hot Glue

Instructions:

1. The first step is a little tedious, but so worth it. Wrap your wreath form in the jute twine, securing with hot glue as you go.
2. Take your wreath form and lay it on top of your men's shirt, with the top of the wreath form at the top of the collar. Cut off the bottom of the shirt about two inches below where the bottom of the wreath lies.
3. Now, carefully cut along the button placket towards the collar, following the seam as closely as you can.

4. When you reach the seam where the collar is joined to the front of the shirt, continue cutting along seamline around collar. (Be sure to cut on the bottom collar seam - you want it to be able to fold over later.)

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

5. When you reach the seam for the opposite button placket, cut down it along the seam as with the other side. It will look like this when you're done. Set this aside until later.

6. Now you'll want to decorate your DAD letters. I painted mine with some turquoise blue acrylic paint (adding a coat of Mod Podge once it was dry for shine.) You can mod podge fabric if you like or do glitter. Be creative!

7. While you're waiting for those to dry, now's the time to make your bow tie (if you're making one).

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

8. Alright, time to get dressed. Put your bowtie on the shirt collar and fold collar down. Then center your collar over the wreath form.

9. Secure back and front sides of the collar to the wreath with hot glue.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

10. Pull your button placket straight down and center on the bottom portion of the wreath, wrapping around the circumference of the wreath. Secure with hot glue.

11. Now it's time to add the letters. Place them on your wreath to your liking and hot glue those bad boys down.

These knitted cabin slippers for men would be perfect for a Father's Day gift or just for yourself.

Materials:

- 1 skein Lion Brand Wool Ease Thick and Quick Cabin Brown 2.5 sts=1"
- 1 skein Lion Brand Jiffy Quick and Easy #124 Camel 3sts=1"
- Knitting board with 30 needles (½" standard spacing)
- Knit hook to lift the loops
- Crochet hook to finish edges
- Large sewing or darning needle to sew pieces together

Sizes:

- Small: (10" length at bottom of foot) width aprox 4-1/2"
- Medium: (11-12" length at bottom of foot), width aprox 5"
- Large: (13" length at bottom of foot), width aprox 6"

Instructions:

1. Main body of slipper: (Knit 2)
2. Cast On 10 (12) 16 stitches with brown yarn. Lay anchor yarn.
3. Knit in Stockinette for (2) rows.
4. Next row: You will extend the stitches to include the toe and foot.
5. Weave in Stockinette for a total of 22 (26) 30 stitches. You are adding new stitches at one end of board.
6. Lay a new anchor yarn over the new stitches.
7. Hook over original stitches. The new stitches only have one loop and you can't hook them until the next row. Do nothing to new stitches at this row.
8. Knit in Stockinette for a total of 20 (24) 28 rows. (for wider feet, Knit additional rows. Each 2 rows will add aprox ½" to width.)
9. Bind Off for the foot area: (You will bind off the stitches that were added.)
10. Starting at end opposite the attached yarn, bind off with crochet hook by pulling 1 loop thru 1 loop. When you get to the original 10 (12) 16 needles, lay the last loop on the crochet hook onto the end needles. This will create a double loop on the last needles.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

11. Knit the original needles for (2) rows. When you get to the end needles with extra loop, be sure to lift the 2 bottom loops over.
12. Bind Off the remaining stitches starting at end opposite the yarn attachment.
13. Bind Off both sets of anchor yarns at opposite edge. Set the slipper aside.
14. Knit 2nd slipper just like this one.
15. Toe/top of slipper: (Knit 2)
16. Cast On (6) stitches in Stockinette Stitch. All sizes.
17. Knit 6 (8) 8 rows
18. Decrease (1) stitch each end of board (both sides of board). You now have 4 sts for all sizes.
19. Knit in Stockinette for 14 (16) 18 additional rows.
20. Bind Off with crochet hook.
21. Knit additional toe/ top slipper just like this one.
22. Bind Off at anchor yarn.
23. Sewing the Slipper together. Fold slipper lengthwise. The shorter end is the toe side. The taller end is the cuff side.
24. Mark the center of the toe end with piece of yarn.
25. One extra piece (toe/top) will be sewn in between the 2 sides of the top of the slipper. The wider end is the toe end. Match the center of toe end with center of toe on slipper. Slip a piece of yarn thru the 2 pieces at matching centers.
26. Start sewing the top of slipper to one side of slipper (main piece). You will be starting at point where the slipper extends for the cuff. Ease the 2 pieces together as you sew so that the seams are even and the toe is rounded. Sew to the center marker.
27. Sew the other side of slipper to the slipper toe/top, easing the 2 pieces together, ending at the center marker. This will complete the top of slipper.
28. Sew the heel from slipper bottom to top at cuff.
29. Making the Cuffs: (Make 2) Now that your slipper is sewn together except for the cuff, you can get an exact measure for how long to make each cuff so that it fits the slipper. Measure with soft measure tape around the cuff area and add ½". This should be aprox 12" (13") 14".
30. Cast On (6) Stitches using the Camel Jiffy yarn. Lay anchor yarn.
31. Knit in Stockinette Stitch for 34 (36) 38 rows or until the piece measures the same length as your measurement around the cuff area.
32. Bind Off.
33. Bind Off at anchor yarn.
34. Sewing the Cuffs: The ends of the cuff will match with the cuff area starting where the slipper top begins. Match the (2) side edges, laying the cuff around the slipper. Secure the ends to the slipper with a crochet hook or similar long needle to hold in place as you sew.
35. Use the invisible stitch to sew one edge of cuff to edge of slipper. You should sew the slipper about ½" from top. Sew the cuff using very edge stitch.
36. Now, roll the opposite edge of cuff over the top of slipper, matching the corners. Sew in place. You may want to turn the slipper inside out to sew this side. You may close up the ends of the cuff in your sewing or use it as a casing for a drawstring. Our sample has the ends closed up. If you choose the casing, your slipper will take on the appearance of moccasins, a nice variation.

Father's Day Gifts from the Kids

Doodle Art for Dad

By: [Smitha Katti for Fiskars](#)

This Doodle Art for Dad is a great if you're looking for preschool Father's Day Crafts. Great for kids of all ages, this framed art is sure to make dad proud, and he'll love displaying it on his desk for all to see. Don't forget to include a little image in the frame so dad can easily show off the artist.

Materials:

- Cutting Mat (24" x 36")
- Round 'n Round Squeeze Punch (Large)
- That's Amore Squeeze Punch (Medium)
- That's Amore Squeeze Punch (Large)
- Blank cream card
- Scrap cardstock
- Foam squares
- Tape
- Crayons

Instructions:

1. To begin with- I used a pre made blank cream card. I trimmed a piece of cardstock, to measure slightly smaller than the card size.
2. I also gathered all of my supplies- a few punches, foam squares and some masking tape. I punched a small photograph into a heart shape and matted it with some cream cardstock. I also punched a circle from regular paper that you would feed to your printer.
3. Adhere the paper circle using masking tape onto the cardstock. I folded the masking tape to form a loop and this worked fine for me. An easier way would be to punch the circle from a post it note and adhere it temporarily onto the cardstock.
4. Let your little toddler color all over the cardstock- with crayons, markers or watercolors.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

5. Once the entire cardstock has been covered with crayon markings, carefully peel of the masking circle. (You could totally punch any other shape and make this a different theme card- a heart, a Christmas tree, a bird, a flower...)

6. I chose to add the photo and a sentiment onto it using foam squares. You could just hand write or if your kids are older ask them to print "Happy Father's Day" or "World's best Dad"

7. I also decorated the envelope with a heart I punched from more crayon markings. This would also be a great idea for the card itself!

Instructions:

2. Trace the outside and inside of the picture frame mat onto your cardboard or heavy cardstock. The outside line will give you a guideline to cut. The inside line will give you an idea of how close to the edge you need to glue your coins.

3. Cut the cardboard or heavy cardstock with a pair of scissors using the outer line as a guideline.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

4. Wrap one side with aluminum foil and secure on the back with several pieces of tape.

5. Using your hot-glue gun, squeeze a small amount of hot glue onto one side of your coin and place the coin glue side down in the center of your foil-covered cardstock. Working away from the center, affix a layer of coins in a random pattern. Don't worry if the coins overlap slightly. The key here is to cover the aluminum foil. A second layer of coins may be applied if you like.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

6. Let the hot glue dry. Then layer the new coin art into a silver-toned frame with a white mat.

7. Another option is to use pennies instead of silver coins. Eliminate the aluminum foil and use the brown colored cardboard as your background. Make sure to use a dark frame to offset the colors of the copper pennies.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

3. Remove back liner from Aleene's Fabric Fusion Peel & Stick adhesive carefully – remember the glue is VERY sticky – and place lettering where desired on wearable. When I am spelling out a word, I like to work from the center letter out. That way, I can usually center my wording better!

4. In addition to lettering, you can add other die cut or hand-cut shapes like flowers. Be sure to press the edges of all your cut pieces firmly to the wearable so that the glue is firmly adhered and will hold through washing.

Beer Bottle Holder

By: [Andy Spencer for Dimond Tech](#)

Looking for unique Father's Day gifts? Crafts made from recycled items, like this Beer Bottle Holder, are not only one of a kind gifts, but are a great way to save some money and help the environment!

Materials:

- Generation Green Glass Cutter
- 1 Beer Bottle – 0.355 liter
- Two Part Epoxy

Instructions:

1. Read and carefully following the instructions contained within the Generation Green (g2) bottle cutter manual.
2. Cover the work area with craft or newspaper.
3. Measure 0.75" up from the bottom of the bottle and mark with a Sharpie®.
4. Using the bottle cutter, score and separate where indicated. The bottom of the bottle will become the base/foot of the beer glass and the top of the bottle, when turned upside-down will become the beverage holding part of the beer glass.
5. Mask off around all cut edges of the glass leaving approximately 1/8" between the cut end and the edge of the tape. This will prevent unnecessary scratching of the glass surface during the smoothing process. Smooth the rough edges as instructed in the bottle cutter manual. Remove tape after smoothing and rinse and dry glass pieces.
6. Following manufacturer's instructions, apply a bead of two part epoxy around the lip of the neck. Place it, lip down into the center of the base. Hold until epoxy is set.
7. Once the epoxy has dried completely. Clean your new beer glass and tuck it, along with a few favorite brews into a decorative basket. Makes a great house warming gift too!

Before your next tailgate, create a [Knit Zig Zag Beer Cozy](#) from Rebecca Brown to keep your brew nice and cool. If you're looking for knit gift ideas for the holidays or birthdays, this is a great pattern to keep on hand.

Father's Day Burger Box

By: Kimberly Crawford

Make a burger box for Dad to hold 4 small cookie "burgers", cupcakes or his favorite treat. This Father's craft project is just too cute.

Materials:

- Patterned paper-Making Memories (Just Chillin Boy)
- Cardstock-Prism (Suede Brown Medium, Suede Brown Light, Intense Orange, Mystic Dark)
- Stamp-Stampendous (Dad Words red rubber stamp)
- Ink-Clearsnap (Colorbox Chalk Creamy Brown), Tsukineko (Memento Rich Cocoa)
- Star brads-Making Memories
- Tools-Clearsnap (Colorbox Stylus for distressing edges), Fiskars EZ Squeeze Star Punch XL, Scor Pal

Instructions:

1. Cut a piece of cardstock to 6.75" x 12". Score the 12" side at: 1.5" 5.25" 6.75" 10.5". Score the 6.75" side at: 1.5" 5.25". Cut at the usual box places and assemble.

2. I added all the embellishing after the box was assembled. The colors were inspired by the Making Memories paper pack, Just Chillin' Boy. The stamp is from Stampendous and is red rubber. I stamped it onto cardstock and then stamped the word DAD onto patterned paper. It was cut out and foam mounted to the lid.
3. The recipe for the cookie "burgers" can be found at verybestbaking.com. Quick and easy to make and the results crack me up! The bun is Nillas, the burger is crushed Nillas and chocolate chips, the lettuce is food coloring mixed with coconut, and the ketchup and mustard are writing icing from CakeMate.

Necktie Cell Phone Case

By: [Tiffany Threadgould for RePlayGround](#)

Steal a tie from dad's stash or get one on the cheap from a thrift store and turn it into this clever necktie cell phone case. This Father's Day craft would be a great gift for the tech-savvy dad.

Materials:

- Necktie
- Ruler
- Fabric scissors
- Large button (about 1 inch in diameter)
- Needle and thread or sewing machine
- Ponytail holder or 3 inches of elastic cord

Instructions:

1. Lay the tie on a flat surface, the wrong (seamed) side facing up. With your ruler, measure 12.5 inches from the bottom point of the tie. With your washable marker, draw a line across the tie at that point, and cut with scissors. Set the upper, skinny portion of the tie aside for another project.
2. With the wrong side of the tie still facing up, make a fold .5 inches down from the cut end. Sew in place with a running stitch.
3. Flip the tie back over onto its right side. Place a large button about 2 inches down from the sewn edge. Sew this button into place.
4. Flip the tie over so the wrong side is facing up and the pointed end points away from you. Fold up the bottom 4 inches of the tie and stitch up the left and right edges to form a pocket. The button should be on the front and center of this pocket.
5. Tie the ends of a 3-inch piece of thin elastic cord together in a double knot, or use a ponytail holder. Attach this piece to the project by sewing the knotted end of the cord, or any part of the ponytail holder, onto the inside edge of the pointed tip of the tie. The pointed end of the tie is now a top flap to the gadget case and the elastic cord is now the fastener. Flip down the flap and hook the cord over the button to secure your gadget in the necktie holder. This new necktie case will really dress up your favorite gadget!

Golf Ball Flowers for Father's Day

By: Dana Frieling for Make Them Wonder

Whether you're crafting for your dad, husband, brother, uncle, or friend, this set of Golf Ball Flowers for Father's Day is sure to be a knockout! Guys will love that you took the time to make this clever gift and they're sure to enjoy some time on the golf course. Present them in a jar filled with acorns, nuts, stones, or even golf tees! No matter how you slice it, this is one gift that's sure to be a hole in one.

Materials:

- Plastic cups
- Skinny dowel rods
- Green floral tape
- Red and green tissue paper
- Vase
- Vase filler (I used nuts and moss, but marbles look great too)
- Ribbon
- Lighter
- Saw
- Golf balls

Instructions:

1. Use the lighter to melt the bottom of the cup. This only takes a few seconds. When you notice the plastic beginning to change form, push the dowel into the bottom of the cup and slightly twist the dowel. You'll see the plastic wrap around the rod. As it cools, the dowel is now enclosed by the plastic. This is what provides stability. Repeat this step until you have the desired amount of "flowers."

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

2. Use the saw to make your "stems" varying lengths.

3. Fill the vase with filler and begin to "arrange" your flowers.

4. Wrap each dowel with floral tape.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

- Here's a close-up of the bottoms of the cups. If some are burned, no worries, they'll be covered soon.

- Now, unwrap a single sheet of red tissue paper. Softly poke the end of the dowel through the center of the sheet.

- Carefully, work the paper up the dowel to the bottom of the cup.

Crafts for Father's Day: 36 Homemade Father's Day Gift Ideas

8. Now fold the tissue around the cup and begin to push the excess into the center of the cup.

9. The excess provides a cushion for the golf ball.

10. Repeat this process until all "flowers" have bloomed!

11. Use the green tissue papers to fill in the dead space and create the look of floral greenery.

12. All that's left is to carefully place a golf ball inside of each flower and you're done!
