Stamps - *Inque Boutique*
Invis-A-Links - *Moore Push Pin*
Images - *ARTchix Studio*
Beaded Trim - *Expo International*
Chipboard Letters
Embellishments
Found Objects

INSTRUCTIONS:

Adhere patterned paper to all of the sides of each block using Mod Podge. Follow by painting the chipboard letters and numbers with black paint. Set aside to dry.

Adorn each block with a variety of stamping, imagery, embellishments and found objects as desired. Once all of the blocks have been completed, turn them over so that the embellished

side is down. Equally space each block apart, and attach one block to another with an Invis-A-Link. (Note: I cut the links in half before adhering them so that they would fit the blocks more easily.) Once the links have dried completely, turn blocks over and adhere chipboard letters as shown. Finish the project by adhering beaded trim across the bottom of the blocks and the feather detail to the top of the center of the block.
