Fusing Instructions—Only Adults Iron

1. Place your peg board on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the peg board. In a circular motion, begin to iron the project. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

Note: Beads need heat for about 10-20 seconds per side to fuse evenly. Depending on the size of the project, additional heating time may be required.

ASSEMBLY

1. Cut a piece of matboard 8 1/4" square.
2. Arrange your checkerboard panels as shown at right, making sure the brown border is continuous around the board.
3. Glue the panels to the board to make one complete playing surface.
4. Start the checkers tournament!
