# PRINTING INSTRUCTIONS

1. Click the download button to download the PDF of the eBook.
2. When the dialog box appears, choose “desktop” as the location for the download.
3. After the eBook downloads, double click the icon of it on your desktop.

4. Go to File>Print.
5. The dialog box will ask you which pages you want to print. Select “All” to print out the whole book, or enter a page range to print part of the book (e.g. 3-7).
6. Click print, and then gather your printed pages and have fun!

# COLORING MATERIALS

## How to Use This eBook

Whether you want to print one page or print them all, this adult coloring book will provide you with hours of relaxing and calming coloring time. Simply gather your favorite coloring tools and you're ready to go! Here are a few of our favorite tools to use:

**Colored Pencils:** If you're a stickler for detail and color, try using colored pencils. Available in a wide variety of colors and styles, colored pencils make it easy to add shading and intricate detail to your design.

**HELPFUL TIP:** Keep those pencils sharpened! A sharp-tipped pencil will help you color in those smaller, more intricate areas of your design and leave you with a piece that's literally bursting with color. Any general pencil sharpener should do the trick.

**Crayons:** For those who are looking to just have some fun coloring, crayons are the perfect solution. Great for bigger designs that don't offer too much detail, crayons make coloring easy and stress-free. Like colored pencils, crayons often come in a wide variety of colors, giving you the freedom to add as much color to your design as you'd like!

**HELPFUL TIP:** Mix up your mediums! You can give your artwork a whole new look by using colored pencils or even paint to help accent your crayon illustration. Color lines and shapes of your artwork heavily with crayon, then cover with them with watercolor or paint. The wax from the crayon will "pop" through the painted surface, giving a neat accent to your artwork.

**Copic Markers:** Copic Markers are an investment, and for those that have them, they can really do wonders in bringing your artwork to life. Copic Markers allow you to add amazing depth and color to your project and, best of all, most of them are refillable!

**HELPFUL TIP:** Beware of the bleed-through! Copic Markers give great color saturation to your artwork; however, that also means that they have a tendency to bleed through. Save your counter tops (or the rest of your coloring pages) by laying some scrap paper underneath your illustration before you start coloring. Two scrap sheets ought to do the trick.

**Fine Liner Pens:** Like colored pencils, fine liner pens give you the ability to add detailed color and design to your illustration. Often used for sketching and handwriting, these liner pens come in a variety of colors and are often easy on the budget. They will give you strong, saturated color but don't lend themselves too well to shading or blending.

**HELPFUL TIP:** Know your ink! Fine liner pens come in a variety of ink bases, including water, pigment, oil, and alcohol. Oil and alcohol-based inks tend to bleed more through paper, as they're designed for mediums such as metal or glass. Pigment ink often offers a more permanent acid-free option that will allow you to enjoy your work for years to come.
